The addition of a newsprint mill greatly increased employment and a new power boiler, unique in North America, allowed .the mill to conserve energy. Also the company became the second largest planter of trees in Canada On June27,1985,another change will take place with the unveiling of our new name Stora Forest Industries. This is an adaptation of our parent company's name, Stora Kopparberg of Sweden, the world's oldest incorporated company. The changes have been many throughout the years, however, our dedication to quality forest products and worlclplace safety will remain. STORA' Stora Forest Industries Port Hawkesbury, N.S.
