Many's the one I pushed down. (Emma: What did you use Listerine for. Dad?) Oh, not much on that. Maybe on a sore or cut or--say something's going to beal, before that beal breaks out, you know? (Would horses and cows get boils?) Yes, sometimes. When it would get at a certain stage, you'd

open them out. And then, there was another thing that used to cause some trouble was a warbler fly. It's a fly inserts something in the skin, and then you get a boil. A boil like. After awhile, when it's ready, you can squeeze it like a--like a worm, you'd squeeze it, when it was right, and then it could come up. You never saw a warbler? (No, I didn't. And you'd squeeze it, and that would come out.) Yeah. When it was ripe. But if you didn't--if you happened now--I've seen it sometimes right under the saddle, you know. And if that would squeeze in there, then you were in trou? ble. It would squeeze and then start fes? tering, and then you had a mess.... (Now, in the Scottish parts of the island, they often talk about the Evil Eye.) Oh. yeah. (Did they have that about here?) It was talked about, but there was nothing to it. That was just like if I wish you were somewheres else today instead of in here. You might have something going wrong with you. But that was all there was to it. You might as well wish for the sun. There was a lot of sicknesses caused by ill feed or wrongdoing of a man, that would cause an animal to act--and they blame it on the evil eye. To me it was all negligence or ill feed or something. As far as the evil eye, that's out. It's just like believing in ghosts. Just about the same. Evil eye and the ghosts, to me, are about the same. (There's no truth at all....) No. As far as I'm concerned. Because, I've been bad enough, if there were any ghosts, the dev? il would come around me--I'd have seen him
