You may get two days this week. That was the most you could get. (And how good a job were you going to get at the steel plant?) A steady job working seven days a week! You were going to get a steady job, in the steel plant. So you were sure of a pay every week. And you're getting the wages that they paid at that time, which was \$3.63 a day, I think it was. It was 43 1/2 cents an hour--do the arithmetic on that. (\$3.48 a day.) Seven days a week. Seven days a week. You had to work seven days to get you a \$20 bill. You had to work seven days a week to see a \$20 bill. 'Cause they had to take off for benefits at that time, and some other deductions that they made. Glace Bay Highway, Sydney, N. S. CALL 564-5464 ?? So in order for you to see a \$20 bill--my eyes were like that! Twenty dollars to me! In my pay bag. When I got my first seven days and saw \$20 in a pay envelope that belong to me! Merciful heaven, that was-- talk about being on Cloud Nine. But, I got ahead in my story. So, he hired me that day. He said, "I'm not even going to bother to send you for an examination. It's too late. But you come back Monday morning and we'll send you in to see Dr. Lynch"--was the company doctor at that time. And they had a little clinic hospital right there, next to the General Office. But he gave me my clock card, and best of all, he gave me my check number-- 105 7. That was my number. Look, I was so grateful. "I thank you, I thank you, I thank you. Very very much." Now I've got a check number in my hand. And when he gave me that, and--opened the door for me. By this time everybody was pretty well gone now. It was getting on to 5 o'clock, and they generally closed around 4:30, so I was pretty close--I just got in under the wire. 340 WELTON ST.
