Dear Mr. Hart; I am returning the data on your riding rake patent by registered mail. They (the Dominion Coal Company engineers) are not interested m it at the moment as the riding rakes they have are equipped with their own type of safety brakes and all the other riding slopes are considered too steep for any type of brake and they are devoting their attention to other safety measures to compensate for the lack of these brakes. I trust that this information will not be too discouraging.... Yours very truly. tWilliam Simpson Department of Mines Z V'e's o -/t'Ajg.

2Z/i.o/J/l'/fi/ez Lew; He had a lobster factory in Margaree Island one time. Had an old dory and made sails from old bags he said, used to sail back and forth with that. And he had a lumber mill out here at Black River.
